# pending-system<sup>®</sup>

---

- energie by movement is the root of all human being
  - movement accompanies us all day long
  - the bassinet is a matter of course for the baby
    - the rocker as a symbol for cosiness
    - the hammock for relaxed recumbency

...a system for dynamic sitting and relaxing on natural way. The dynamic is effectuated by four pendulums which are fitted in the corners of the seat. As a result the frame is carried freerunning even in a calm sitting position. After a short time of use you will feel deeply relaxed!

# Information !

## Instruction manual for Pendingsystem

The pendulousness of your sofa is adjusted to the ideal vibration by the producer. If there appears a snap after a longer period of use, you have to fasten the nut B (see drawing). While fastening the nut B hold screw A with a screwdriver.
